DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Hendricks et al. (U.S. Patent 6,675,386).

As to claims 1 and 3, Hendricks et al. teaches the steps of:

a central cite (remote site 102) connected to network (Fig. 1, web site 112);

a plurality of cameras (Fig. 1, cameras 102', 102'', 104', 104'') disposed about an event site, the cameras providing view of the event site from at least two different camera angles (col. 5, lines 27-38), the cameras providing video feeds to the central site via the network (see abstract; col. 3, line 65 through col. 4, line 8), and

means for enabling a user to access the central site and to selectively view the event site by means of at least two of the plurality of cameras (see abstract; col. 18, line 62 through col. 19, line 4; please throughout the patent).

Claims 2 and 4 are rejected for the same reasons as discussed above with respect to claims 1 and 3. Furthermore, Hendricks et al. teaches means for sequentially

recording the feeds from the at least two of the plurality of cameras (col. 5, lines 34-43; col. 19, lines 10-16).
